# Dry and clean air for confident braking.

The original cartridge dehumidifier Mercedes-Benz with oil separator: significant benefits.

- Air treatment of the smallest particles of oil and suspended solids thanks to the integrated coalescing filter.
- Maximum efficiency due to optimal composition of the adsorbent.
- Protect rubber parts of the valve.
- Extend the life of system components.
- Less breakage = less costs.
- Easy replacement - Easy to install instead of the standard chuck.

Do not settle for less!
